

# The Ultimate AI-Powered College ERP System

Transforming Higher Education with Intelligent Automation!

# About Us.

## Introduction

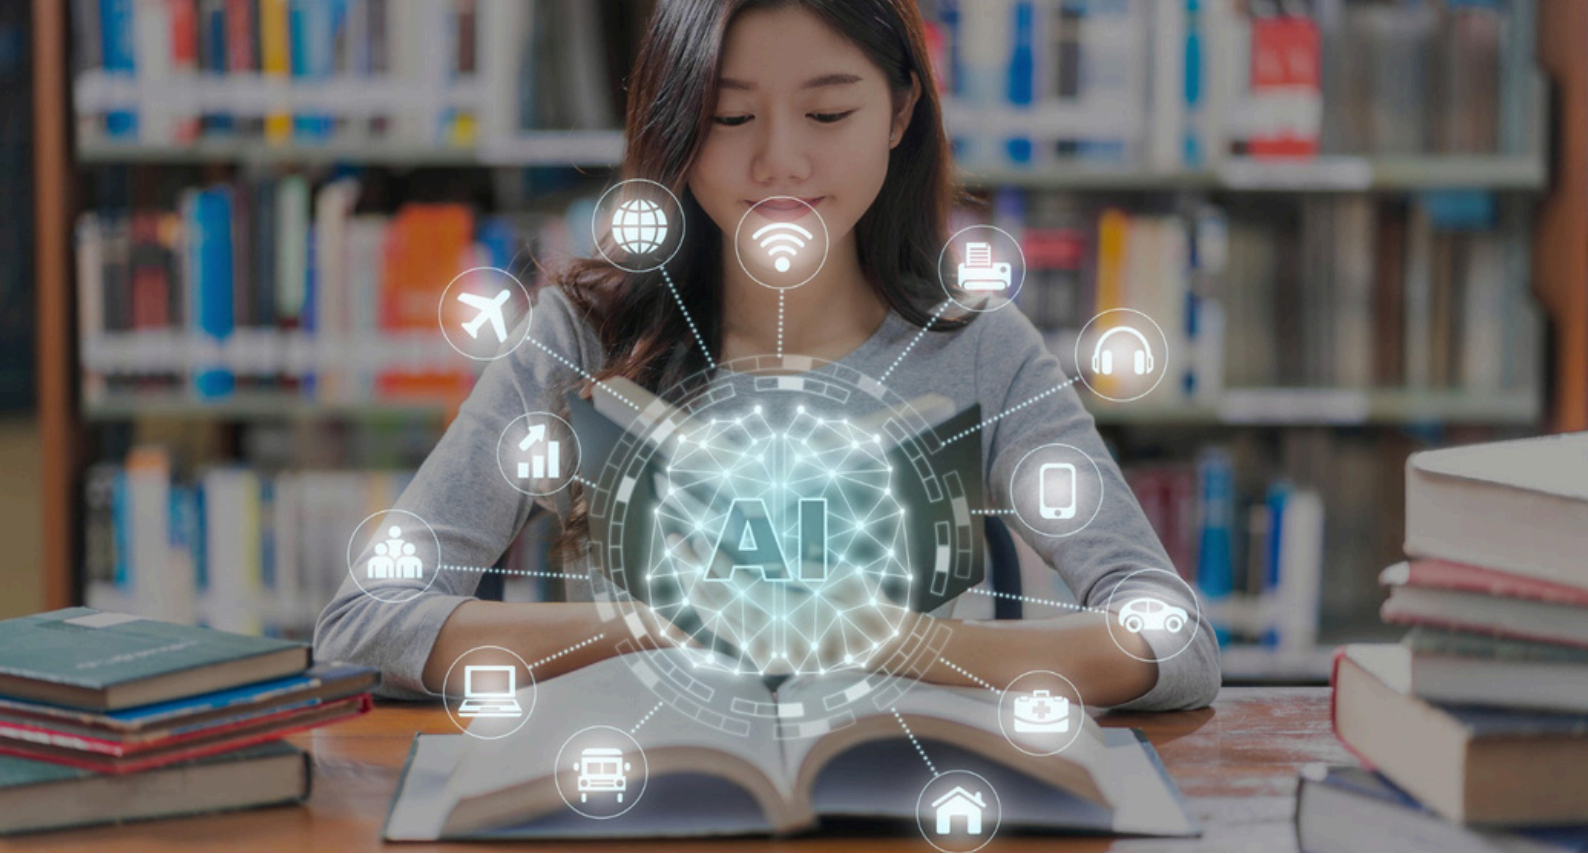

Pegado is an advanced AI-powered ERP system designed to streamline academic and administrative operations for colleges and universities. It automates the entire student lifecycle, from admissions to alumni management, ensuring seamless governance, regulatory compliance, and digital transformation. With AI-driven features like smart admissions, automated attendance, timetable scheduling, fee management, examination automation, and predictive student performance analytics, Pegado enhances efficiency and decision-making.

Its cloud-based, secure platform supports campus management, real-time communication, and accreditation readiness, making it the ultimate solution for institutions seeking to optimize operations, improve learning outcomes, and embrace the future of higher education.

# WHY CHOOSE US.

- ✓ **Ready-to-Use & Cost-Free Migration** – Get started instantly with a hassle-free transition from your existing system—no downtime, no extra costs.
- ✓ **AI-Powered Student & Faculty Services** – Instantly assist students with queries on exam dates, registrations, and more, while helping faculty with syllabus and academic planning.
- ✓ **24/7 Dedicated Support** – Our experts are available round-the-clock to ensure uninterrupted operations and smooth functionality.
- ✓ **Complete College ERP** – Manage academics, finance, administration, and institutional operations from a single, intuitive platform.
- ✓ **Smart Examination & Digital Valuation** – AI-driven onscreen evaluation with automated grading for fast, error-free results.
- ✓ **Accreditation & Compliance Ready** – Pre-configured tools to simplify NAAC, NBA, and regulatory reporting.
- ✓ **Real-Time KPI Dashboards** – Actionable insights at your fingertips for data-driven decision-making and institutional growth.
- ✓ **Affordable & High-Impact Customization** – Get tailored solutions to match your institution's unique needs—without the big price tag.

# Pegado – Core Modules.

 **Academics Module** – Manages courses, departments, syllabus, and credit allocation. Supports short-term and online programs

 **Admission Management** – Customizable application forms, entrance exam handling, and merit-based seat allocation.

 **Fee Management** – Handles online payments, installment tracking, and real-time financial reports. Sends due payment alerts.

 **User Profile Management** – Manages student, faculty, and admin access with role-based permissions and authentication.

 **Curriculum Management** – Defines academic structures, course mapping, and credit frameworks. Supports electives and program regulations.

 **Time Table Management** – AI-driven scheduling of lectures, faculty, and rooms. Prevents clashes and allows adjustments.

 **Attendance Management & SMS Integration** – Tracks attendance via biometric/RFID and sends automated alerts to students and parents.

 **Internal Exam Module** – Manages scheduling, execution, and grading of internal assessments. Tracks student performance.

-  **Question Paper & Question Bank Management** – AI-driven question paper generation and assessment structuring.
-  **Examination Management** – Automates online/offline exams, hall tickets, invigilation, and evaluations.
-  **Tabulation & Result Processing** – Automated, rule-based mark entry, tabulation, and moderation, ensuring compliance with academic grading policies.
-  **Hall Arrangement Module** – AI-powered seat planning and invigilator assignment for smooth exam logistics.
-  **Onscreen Digital Evaluation** – Enables paperless grading with AI-based annotation tools. Speeds up results.
-  **Hostel Management** – Room allotment, facility management, and student accommodation tracking.
-  **Moderation Marks Module** – Ensures fair result processing with automated moderation.
-  **Certificate Management** – Issue academic certificates, including provisional, transfer, and degree certificates.
-  **Result Publishing & Book Generation** – Quick and automated report generation.
-  **Online Exam Module** – Conducts remote-proctored exams with automated evaluation and instant results.
-  **Accreditation & Compliance Management** – Automated regulatory reporting for NAAC, NBA, and AICTE.
-  **Digital Library** – AI-powered repository for e-books, research papers, and academic resources.
-  **Learning Management System (LMS)** – Supports online learning, course materials, assessments, and virtual classrooms.
-  **Placement Management** – Connects students with job opportunities and tracks placements.
-  **Choice-Based Education (CBE) Module** – Supports flexible credit-based learning.
-  **Grace Mark Module** – Automated grace mark allocation based on predefined criteria.

 **Outcome-Based Education (OBE) Module** – Supports modern academic frameworks.

 **Condonation Module** – Streamlines condonation approvals and fee processing.

 **Grievance Redressal & Feedback System** – Enhances student satisfaction and institutional transparency.

 **Project Management Module** – Efficiently track academic and research projects.

 **Research Management Module** – Supports funding applications, research documentation, and compliance tracking.

## Institutional Enrichment Modules.

 **Alumni Management** – Strengthens alumni engagement with networking, events, and mentorship programs.

 **Infrastructure Management** – Optimize campus facilities and resources.

 **Polls & Surveys** – Gather student and faculty feedback for continuous improvement.

 **File Flow Management** – Digital document processing and approval tracking.

 **Event Management** – Plan and manage institutional events seamlessly.

 **Procurement Management** – Vendor selection, purchase tracking, and inventory control.

 **Finance & HR Management** – Streamline payroll, budgeting, and workforce administration.
