Supports NAAC & AICTE with automated reporting.
- ↪ **SaaS-Based, Low-Cost & Quick Migration**
Scalable, secure, and maintenance-free with rapid deployment.
- ↪ **AI-Driven Student & Faculty Support**
Instant query resolution & data-driven insights.
- ↪ **Real-Time KPI Dashboards**
Actionable analytics for university leadership & stakeholders.
- ↪ **24/7 Support & Customization**
Scalable for universities of all sizes.

**TURNING VISION
INTO INNOVATION,
POWERING
EDUCATION !**

PEGADO – CORE MODULES

Academics Module : Configurable to manage university structures, course creation, and program mapping. Supports syllabus management, course credit allocation & online courses across disciplines.

Admission Management : Customizable admission forms, seamless application tracking & fee collection. Supports entrance exams, merit list generation, counseling, and quota-based seat allocation.

Teacher Management : Manages faculty profiles, department allocations, and workload distribution. Includes ID card generation and performance tracking.

Enrollment, Timetable & Course Registration: Handles seat allotment, course registration, RFID generation & hostel allotment. Ensures dynamic timetable management & automated notifications for students and faculty.

Teaching Management: Tracks faculty workload, assignments, attendance & sessional exams. Enhances student engagement with academic progress monitoring.

Pre-Examination Management: Automates exam forms, fee collection, hall ticket generation & hall arrangements. Ensures smooth exam scheduling & compliance.

Question Bank & Question Paper Management: Secure repository for automated question paper generation & AI-driven assessment structuring. Supports on-demand exams, randomization & difficulty level configurations.

Examination Management (Online & Offline): Manages exam conduction, invigilation, malpractice tracking & secure assessments. Ensures compliance & transparency in university evaluations.

Next-Gen Smart Camp Management: Seamlessly plans exams, allocates teachers, processes results & manages exam camps.

Digital Onscreen Evaluation: Enables paperless assessment with AI-driven insights for faster result processing.

Tabulation, Moderation & Result Processing: Automates result tabulation, moderation & grading for fair assessments.

Result Publishing & Book Generation: Generates student, staff, and department-side reports for transparent academic tracking.

Certificate Management: Streamlines application, approval & issuance of academic certificates. Supports Provisional, Degree, Transfer & Migration certificates.

-  **Reports & Analytics:** Generates institutional reports, NAAC compliance reports, and performance analytics. Supports real-time data visualization and AI-driven decision-making.
-  **User Profiles & AI Dashboards:** Manages student, teacher, HOD & parent profiles with smart insights & academic tracking.
-  **Hostel Management:** Automates student accommodation, room allotment & facility management.
-  **Placement Management:** Connects students with organizations for jobs & internships. Tracks job postings, applications, and interview scheduling.
-  **Alumni Management:** Strengthens alumni engagement with networking, events & mentorship programs.
-  **Project Management:** Automates recruitment, payroll, attendance & faculty performance tracking.
-  **Research Management:** Manages fee collection, payroll processing, scholarships & budgeting.
-  **Accreditation & Compliance:** Automates NAAC & AICTE reporting, ensuring institutions meet regulatory standards.
-  **Grievance Redressal & Feedback System:** Enhances governance with structured complaint resolution & feedback mechanisms.
-  **Digital Library:** AI-driven repository for e-books, research papers, and academic resources.

INSTITUTIONAL ENRICHMENT MODULES

-  **File Flow Management:** Streamlines document processing, approvals & record-keeping.
-  **Event Management:** Automates scheduling, registrations, and resource allocation for academic events.
-  **HR Management:** Tracks academic & funded projects, ensuring budget compliance & progress monitoring.
-  **Finance Management:** Supports PhD admissions, proposal submissions, thesis evaluations & research documentation.
-  **Procurement Management:** Simplifies vendor selection, purchase tracking & inventory control.
